# Financial Highlights

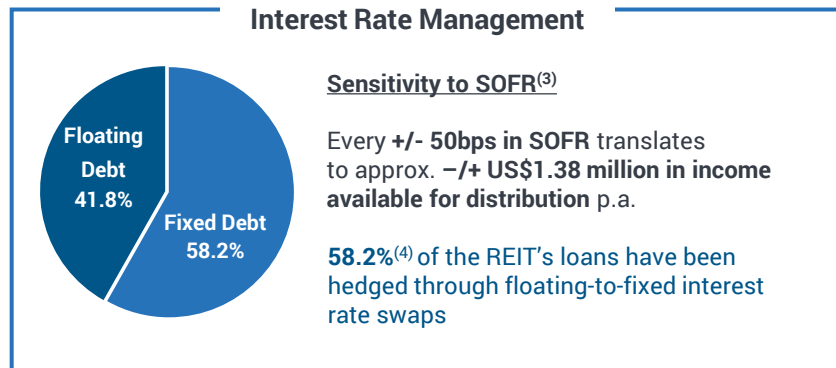

# Financial Overview

US\$'000	1Q 2026	1Q 2025	% Change
Gross Revenue	38,722	36,859	5.1
Net Property Income (NPI)	22,322	19,651	13.6
<b>Adjusted NPI</b> (excludes non-cash straight-line rent, lease incentives and amortisation of leasing commissions which have no impact on distribution)	23,368	20,160	15.9
Other information: Finance and Other Trust Expenses	(8,674)	(7,884)	10.0
Income Available for Distribution	10,025	9,609	4.3

- Adjusted net property income was up by 15.9% year-on-year mainly arising from higher one-off other operating income, cash rental income and lower other property expenses. This was partially offset by higher repair and maintenance as well as utilities expenses
- Finance and other trust expenses were higher mainly attributable to higher finance costs

## Notable 1Q 2026 Leasing Activities

- The Plaza Buildings: ~8,700 sf of new leases were executed; AEI and repositioning works for the building are underway
- The Westpark Portfolio: A known vacate of 2026 has vacated ~124,000 sf of space, negotiations are underway to backfill a portion of the space
- Maitland Promenade I & II: A new tenant took up ~22,250 sf of space

## Completed AEIs in 1Q'26

- The Plaza Buildings: Repositioning of 10800 Building lobby

# Focused Leasing Strategy to Drive Occupancy

A

## Strategic Repositioning of Assets

*Enhance amenities and common areas as well as the conversion of under-utilised space to attract high-quality tenants and enhance long-term value*

Ongoing asset enhancement initiatives include:

- Upgrades to lobby and common corridors at 105 Edgeview
- A remodel of both indoor and outdoor amenity spaces at Bridge Crossing and enhancements to indoor and outdoor amenity spaces at select properties, including Great Hills Plaza, Westech 360 and Iron Point

B

## Active Spec Suites Strategy

*Lower long-term capex requirements, faster leasing and adaptable space sizes*

- Ongoing build-out of a full spec suite floor, *The Post*, at 10800 The Plaza Building, following a long-term tenant vacating at the end of 2025
- Individual spec suites in appropriate sizes will continue to be planned and built at selected properties where there is expected demand

C

## Focus on Executing Leases

*Proactive marketing to drive occupancy*

- Leasing activity expected to gain momentum beyond 1Q, typically the slowest quarter, supported by demand from key sectors such as technology, aerospace and defence in KORE's key submarkets
- The Manager is in negotiations on significant leases at The Westpark Portfolio and is seeing healthy renewal interest at Westmoor Center; confident of ending FY2026 with occupancy near 2025 levels

# Proactive Leasing Strategy

## Repositioning of 10800 The Plaza Building Lobby

- Completed asset enhancement to reposition the lobby, previously occupied by an operating bank branch, into new amenity spaces, additional leasable area and common areas
- The refreshed lobby features integrated seating along the entire building corner as well as meeting and play spaces
- The enhanced lobby experience has increased property's appeal, with advanced negotiations underway with a potential tenant for the lobby suite

# KORE's Spec Suites Strategy

## Ongoing built-out of Spec Suite Floor, The Post, 10800 The Plaza Building

- Full floor spec suites at Iron Point and 1800 West Loop are fully leased, while 5 out of 6 spec suites at 10900 The Plaza Building, completed in end-March 2025, have been leased
- Following the strong leasing outcomes from these full floor spec suites and after a long-term tenant vacating at the end of 2025, construction is underway for another full-floor spec suite, The Post, at 10800 The Plaza Building
- Early leasing interest ahead of project commencement

- Six studio spec suites with flexibility to combine studios for customisation
- On-floor amenity core that is exclusive for tenant use:
  - Meeting space
  - Shared servery and communal work bar
  - Break-out seating areas across floor
- Target completion in 3Q 2026

# Over 390 Tenants in Diversified Regions and Industries

KORE's buildings and business campuses in the tech hubs of Bellevue/Redmond, Austin and Denver contribute ~65% of NPI<sup>(1)</sup>

~50% of NLA are occupied by high-quality tenants from the growing and defensive sectors of technology, advertising, media and information ("TAMI"), and medical and healthcare

# Appointment of new US Asset Management Firm

- Entered into a new asset management outsourcing agreement with Transwestern Investment Group, L.L.C. (“Transwestern”)
- Same asset management team that had been supporting KORE will continue providing asset management services
- Transwestern is KORE’s appointed property management service provider for the majority of the assets in KORE’s portfolio and has an established presence in all of KORE’s markets
- Continuity of asset management personnel, together with Transwestern’s track record and familiarity with KORE’s assets and processes, is expected to support a seamless transition of the asset management functions

**Established in 1978, Transwestern is a privately held, fully integrated real estate enterprise with long-standing expertise across investments, asset management, leasing, property management and development.**

**Supported by a long-tenured leadership team, Transwestern operates through a nationwide platform that includes 33 US offices and 2,200 professionals delivering investment management, development, and real estate services across diverse commercial sectors.**

# Outlook & Strategy

# US Office Trends to Watch

## 1 Turning point for US office<sup>(1)</sup>

- ✓ Leasing activity has reached post-pandemic highs and is projected to pick up further through 2026, supported by lease expiries and constrained new supply
- ✓ 1Q 2026 office leasing volumes increased 25% year-on-year, exceeding pre-pandemic quarterly averages for the first time this decade and reaching the highest level since mid-2018<sup>(2)</sup>

## 3 AI's impact growing in multiple ways<sup>(3)</sup>

- ✓ Augmentation of human capabilities, reshaping the skill profiles of office workers toward higher-value, judgment- and creativity-based roles
- ✓ Rising preference for high-quality, flexible spaces that enable collaboration and in-person interaction that AI cannot replace

## 2 High-quality and well amenitised space continues to outpace<sup>(1)</sup>

- ✓ Workplaces increasingly serve as engagement tools, designed to attract talent and foster innovation
- ✓ Demand continues to favour well-located, modern offices with strong amenities and flexible layouts

## 4 Office investments regaining traction<sup>(1)</sup>

- ✓ Office has led all major asset classes in price growth during 2025, with transaction volumes rebounding and selective larger deals emerging
- ✓ Trends may repeat in 2026 if improved fundamentals, compelling pricing, and renewed interest from institutional and cross-border capital continue

(1) The 2026 CRE Reset: Stability Through Uncertainty, Colliers, 2 December 2025.

(3) Gen AI's Impact on U.S. Employment and Office Space, CBRE Investment Management, 5 February 2026.

# KORE's Amenitised Portfolio Remains Well Positioned

Active portfolio enhancements to tenant spaces have supported stronger employee engagement, higher building performance, and sustained leasing momentum

- ✓ 85% with tenant lounges
- ✓ 85% with conference rooms
- ✓ 85% with fitness centres
- ✓ 77% fitted with food and beverage options (full deli or food service and substantial grab and go markets)
- ✓ 100% with outdoor spaces

# Polarising income-tax systems

## Favourable Tailwinds for KORE's Low-tax Markets

- **State income tax rates increasingly polarised<sup>(1)</sup>:** In 2006, 15 states had top tax rates below 5% and only one exceeded 10%; today, more than half of states are below 5%, while now five blue states plus Washington, D.C. are in double digits
- **Policy divergence is reinforcing migration patterns:** Democrat-led states continue to pursue higher income-tax policies, which have coincided with sustained outflows of high-earning households to lower-tax states
- **Wealth, talent and corporate activity continue to shift towards low-tax markets:**
  - IRS data indicate that 26 states saw net gains in income-tax filers between 2021 and 2022, led by no-income-tax jurisdictions<sup>(2)</sup>;
  - Broader trend of financial firms moving to Sunbelt states to capitalise on lower tax environments and operational costs: New York-based Apollo Global Management is planning a second U.S. headquarters in the Sunbelt; Goldman Sachs built a new campus in Dallas, Texas, to house >5,000 new employees

- ✓ **Washington:** Introduced its first personal income tax on high earners
- ✓ **New York City:** Debating a proposed millionaire tax
- ✓ **California:** Exploring additional taxes on ultra-wealthy individuals
- ✓ **Massachusetts and other blue states** maintain or expand millionaire taxes

- ✓ **Georgia:** Recently passed legislation to cut income-tax rates further toward sub-4% levels
- ✓ **Texas:** Lower effective corporate taxes via franchise-tax reform
- ✓ **Florida:** Preserving corporate competitiveness in a no-income-tax state

**KORE's submarkets benefit directly from this trend, offering lower living costs, a favourable income-tax environment, and vibrant lifestyle amenities, including Bellevue/Redmond<sup>(3)</sup> (Seattle), Dallas and Austin (Texas), Nashville (Tennessee), and Orlando (Florida)—all of which levy no personal state income tax**

(1) "Red and Blue States are Growing Further Apart on Income Tax", Wall Street Journal, 15 March 2026.

(2) "The High-Tax Wealth Flight Continues", Wall Street Journal, 27 March 2026.

(3) In Washington, D.C., the marginal income tax rate applies solely to income above US\$1 million and impacts an estimated 0.05% of taxpayers.

# Corporate HQs Migration Favours KORE's Key Markets

- HQ relocation activity has rebounded in 2025, as companies reassess long-term operating models, talent strategies and real estate needs post-pandemic
- Technology, manufacturing, business and financial services sectors lead HQ moves
- Beyond cost of living, relocation decisions increasingly prioritise access to talent, lifestyle appeal and amenity-rich office environments
- **Dallas–Fort Worth, Austin and Nashville** rank among the top five US metros gaining net new corporate headquarters – all markets where KORE has an established presence

## KORE's Key Markets

- ✓ 18-hour cities with vibrant entertainment, dining, and outdoor recreation
- ✓ Lower living costs and favorable income tax environments
- ✓ Access to top universities enhancing talent pools and innovation

## Relocations by Reason

# Shift Towards Move-in-ready Suites

- Average office lease sizes have moderated, with typical deal sizes now ~15% below pre-2020 levels; overall leasing activity remains robust, reflecting sustained demand for smaller spaces
- Preference for move-in-ready space expected to persist, as subdued job growth and limited new supply reduce availability of large space blocks, while demand remains for smaller, readily occupiable spaces

## Move-in ready spaces dominate office lease activity

### Build-out status for office leases under 10,000 sf

## Move-in ready office space leases 50% faster

### Median months to lease

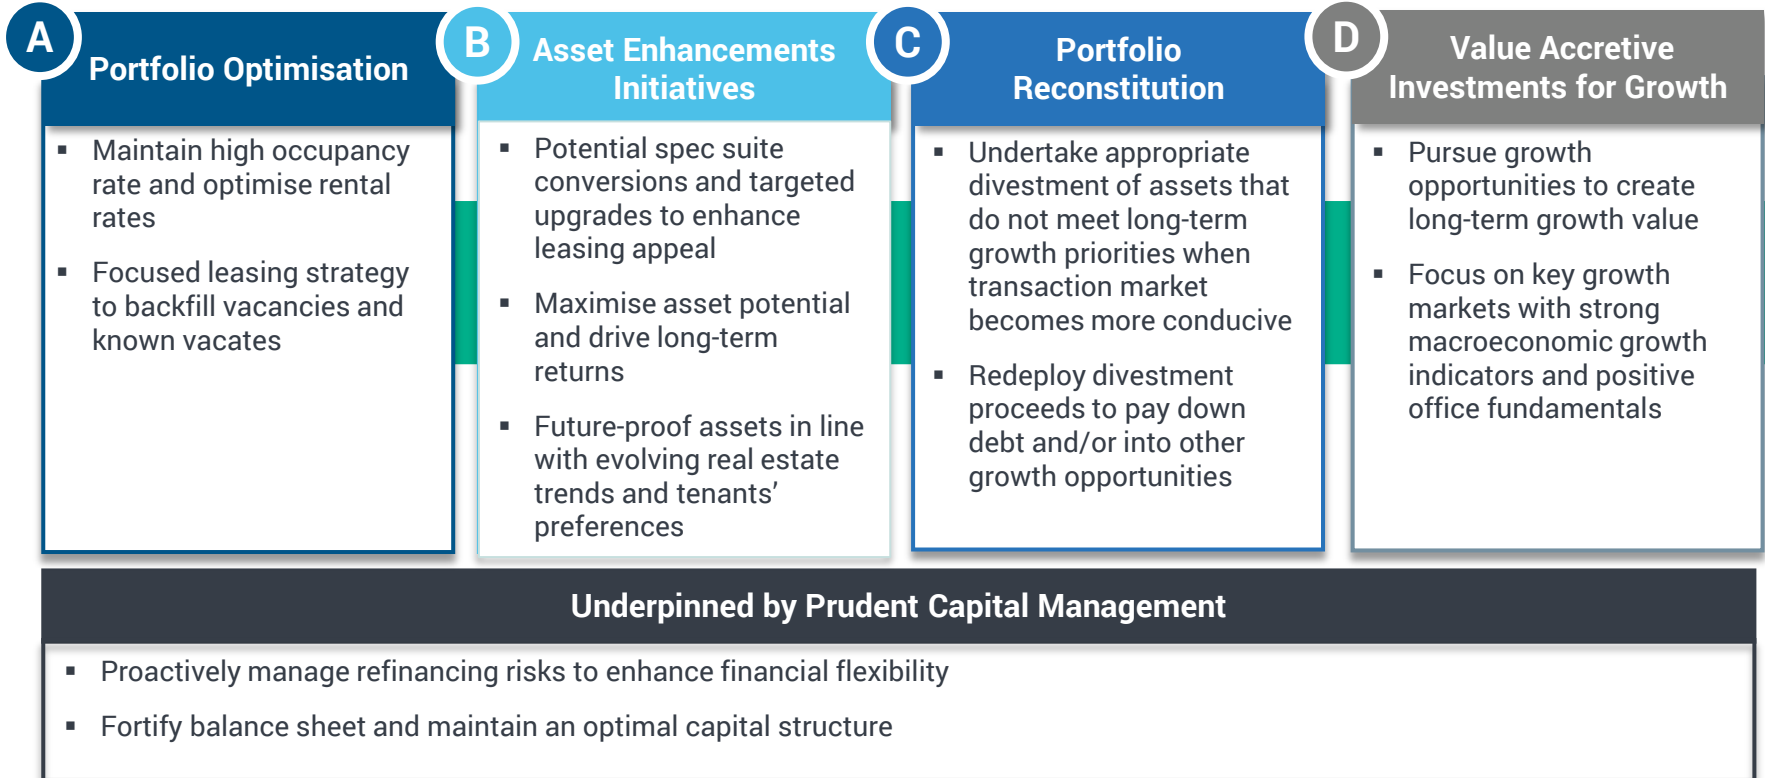

Source: "US office leasing sees shift toward move-in-ready suites", CoStar, 19 March 2026.

Note: Direct, non-renewal office leases of non-medical space use of less than 10,000 sf in 2024 and 2025 in buildings 50,000 square or more; Move-in ready includes spec suites and fully built-out space. Not move-in ready includes partially built-out or shell space. Includes the 30 US national index markets with at least 100 million sf of inventory.
